

ECOSYS MZ3201ix

A smarter way to modernize document workflows.

Powerful A3 capabilities with the simplicity, security and value your growing business demands.

A3 ADVANCED

Enterprise capabilities within reach

SMART WORKFLOWS

Simplify the way work gets done

SECURE BY DESIGN

Security built for modern print infrastructure

CLOUD READY

Scan and organize across cloud applications

Work Smarter

Streamline paper and digital processes with seamless cloud connectivity, intuitive workflows and efficient document digitization.

- ✓ Operate from day one with a simple user interface, multi-touch preview zoom and improved job control.
- ✓ Print, copy, scan, organize and route documents to cloud and business apps with fewer manual steps and minimized errors.
- ✓ Enjoy faster workflows with secure access to scan-to-cloud, OCR, document management and workflow automation capabilities.

*OCR is performed by KCC or the Scan Extension Kit

Control Costs

Spend only what you need for low-to-mid print volumes at enterprise standards.

- ✓ Reduce printing costs with cloud printing enabled by pre-installed Kyocera cloud print application (KCPS).
- ✓ Keep total cost of ownership down with long-life components and a standard document processor.
- ✓ Reduce energy use with ultra-low power consumption, CO₂ and power monitoring, and recognized energy certifications.

Stay Secure

Safeguard documents, devices, and data with advanced security designed for today's connected workplace.

- ✓ Protect sensitive information with encryption, AI confidential document detection and secure print with ID authentication.
- ✓ Strengthen data protection and business continuity with secure connectivity, network protection and backup capabilities.

From everyday printing to advanced digital workflows.
